## Profile

---

Emilie is a London-based designer, seeking opportunities to grow herself as an individual. Enthusiastic to keep learning and develop skills from great designers around her.

Passionate for creating meaningful designs that make a lasting impact, she finds excitement in dabbling across design mediums. From motion to digital design, print to experiential and web design, Emilie likes to keep the plates spinning. During her years in the industry, she's successfully pitched to clients and had the responsibility to lead on many projects.

Away from the office she's a plant mum, watches Friends and US Office on repeat, reads during her commute and enjoys kickboxing to release the stresses of day to day life.

## Education

---

First Class BA Hons Graphic Communications  
Norwich University of the Arts

Adobe Suite:

Photoshop  
Illustrator  
InDesign  
AfterEffects  
XD

Other:

Keynote  
Figma

## Experience

---

Designer  
Wondersphere

May 2022 - Present

At Wondersphere I am a core member of the design studio. From taking lead on multiple projects from start to finish, creating decks and pitching to clients, I have grown into myself as a designer. From small print, large scale environmental, digital and web design, I've immersed myself in all aspects of design at Wondersphere, taking on each challenge as they come.

Creative Intern  
Superunion

March 2022 - May 2022

I enjoyed and was motivated by the collaboration during my time working amongst this large team at Superunion. It gave me the opportunity to bounce off of and learn from many experienced designers in the field. I contributed meaningfully to projects as my work was pitched to global clients.

Design Intern  
Studio Mean

January 2022 - February 2022

Joining this small team I was assigned lead on live projects which taught me to have more confidence in my ideas and work independently towards deadlines. During this Internship, I'm proud to share I worked on 'The Sustainability Show' branding which launched Autumn 2022 and has further shows lined up for the future.

Junior Designer  
Two Circles

October 2021 - January 2022

This role exposed me to various disciplines in creating marketing materials - print and web based and creating presentations for the sales team. I developed an excellent attention to detail and learnt to take ownership of projects as well as working collaboratively with the wider Two Circles team.

Design Intern  
For Different

August 2021

Just a month after completing my university course I was in my first internship position where, actively got involved in a variety of live briefs both in person and in a remote setting. I developed my presentation skills by sharing my ideas in workshops to the team and oversaw client meetings, where I learnt the basis of client - designer relationships.
